

Comet 62500 is a laser bar with 6 x 2500 mW RGB full color animation laser array. It has 6 laser outputs each separately controlled with up to 100 built-in patterns allowing it to create a wide variety of dynamic and colorful effects and graphics. It is best deployed in clubs, large shows and entertainment productions.

LASER Source: 6 x 2500 mW diodes
 Red power/wavelength: 430mW/638nm
 Green power/wavelength: 680mW/520nm
 Blue power/wavelength: 1400mW/445nm
 Color mixing: RGB
 Laser safety: Class 3B
 Modulation: Analog

SCANNER Scan system: 15K scanner
 Scanning angle: $\pm 20^\circ$

CONTROL & PROGRAMMING Control protocols: DMX, Auto, Sound, Master-slave
 Display: 2.4' TFT Display
 Internal patterns: 100
 Control channels: 20, 120 CHs

ELECTRICAL Input voltage: AC100-240V 50/60Hz
 Power consumption: 100 watts

CONNECTIONS DMX connections: 3 pin XLR In/Out male and female
 Power connections: PowerCon In

PHYSICAL Dimensions: 1000 x 249 x 290mm
 Net weight: 19.8 Kg
 Color: Black
 IP rating: 20
 Operating temperature: 0°C/40°C

Dimensions
