

SPARKLY WASH 7 is a small in size, fast in movement and versatile in effects LED moving head zoom wash. It is powered by 7 x 15 Watts RGBW LED featuring a zoom angle of 7.9° to 38° and a pixel by pixel level of control. This range of dynamic effects makes this compact moving head ideal for small venues, clubs, theatre and indoor events.

SOURCE Light source: 7 x 15 Watts RGBW LED
LED life expectancy: 50,000 Hrs.

OPTICAL SYSTEM Beam angle: 7.9° to 38°
High Quality European Lens

DYNAMIC EFFECTS Color mixing: RGBW
Electronic variable strobe
Built-in color and dynamic macros
Pixel by Pixel control

CONTROL & PROGRAMMING Control protocols: DMX
Display: LCD screen display, reversible 180°
Control channels: 14, 25 CHs

MOVEMENT Pan: 540°
Tilt: 270°
Resolution: 16 bit
3 Phase motor for fast and quite movement

ELECTRICAL Input voltage: 110-240V/50-60Hz
Power consumption: 600 watts

CONNECTIONS DMX connections: 3 pin XLR In/Out male and female
Power connections: Powercon In/Out male and female

PHYSICAL Dimensions: 252 x 334 x 160mm
Net weight: 12 Kg
Color: Black
IP rating: 20
